MICROCHIP Chip Kit Pi

- Designed exclusively for the Raspberry Pi and Arduino ecosystems
 - Features a Microchip 32-bit PIC32 microcontroller (MCU) in a prototyping-friendly, low pin count SPDIP package
 - Supports the chipKIT™ Multi-Platform IDE (MPIDE) - open source and Arduino compatible programming language and development environment
 - Allows users to create, compile and program Arduino sketch-based chipKIT™ applications within the Raspberry Pi operating system
 - Enables the development of 3.3V Arduino compatible applications for the Raspberry Pi using PIC32 MCU
- MCM Part #83-15549**

Raspberry Pi Starter Kit

- 512MB RAM, two mounting holes, built-in reset circuit, and can be powered via USB data ports
 - Includes O/S on 8GB SD card, case, and power supply
 - The perfect starter pack for someone new to the Raspberry Pi
- MCM Part #83-14275**

Customer Review
★★★★★
"This little computer just rocks. This starter kit is good."

ONLY \$63³¹

Customer Review
★★★★★
"This case construction is one of the best for the money"

CYNTECH INC

Raspberry Pi Case and SD Covers

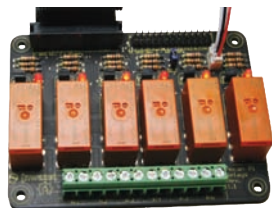

- Compact, low-cost case is tailored to fit the Raspberry Pi board
- Printed with the Raspberry Pi logo
- Provides openings for all connectors
- Exit slot in the side of the case to allow for installation of a GPIO expansion cable
- Optional custom matching SD card covers for security
